

MBTI® master class workshop

Advanced MBTI® applications

Myers-Briggs Type Indicator® (MBTI®) Master Class Series workshops are designed for certified practitioners who wish to deepen their understanding of type theory and its practical application.

The Advanced MBTI® Applications workshop equips practitioners to enable individuals and groups to further apply knowledge of their type for improved leadership, communication, problem solving and team functioning.

It also offers MBTI® certified practitioners an opportunity to build skills, boost confidence and reinvigorate how the MBTI® instrument is used for deeper individual and group development in their own organisations. As part of the workshop, you will experience and receive tried and tested MBTI® exercises and resources.

You will learn to:

Build on the skills acquired in your MBTI® Certification Program

Develop strategies for responding to challenges when introducing individuals and teams to the MBTI® instrument

Incorporate type into practical tools and techniques

Apply the MBTI® instrument for deeper development with individuals, teams and leaders

Understand the impact of type dynamics for personal and professional development

Use type to manage communication, conflict and stress

Other MBTI® Master Class Workshops

- Type and Change
- Type and Coaching
- Type and Conflict
- Type and Leadership
- Type and Teams
- Practitioner Refresher

“ Beyond the introductory level awaits much deeper and profound opportunities for practitioners and their clients to apply type theory for more focused development.
